

Licence Pricing – **ISYNAPSE**

Licences

ISYNAPSE licences are available on an annual subscription basis.

The annual licence fee includes:

1. Installation on an unlimited number of computers
2. 12 months full operation of the software from the date of purchase or renewal
3. 12 months email support for user assistance and issue debugging

Licence Pricing

Annual licence fees are subject to annual review. Annual fees are currently set as follows:

- One building: AUD\$ 2,500.00 per annum + GST
- Two buildings: AUD\$ 5,000.00 per annum + GST
- Three buildings: AUD\$ 7,000.00 per annum + GST
- Four buildings: AUD\$ 8,500.00 per annum + GST
- Five buildings: AUD\$ 10,000.00 + GST
- Additional buildings: Add AUD\$ 1,000.00 per annum + GST per building

Setup fees

Setup of the **ISYNAPSE** database(s) for a building can be carried out by Crabtree Engineering Software for an additional fee subject to prior quotation.

Setup fees for most buildings up to 40,000 m² NLA are estimated to be in the range from AUD\$ 2,500 to AUD\$ 7,500 + GST per building depending on the nature and size of the connected building and associated documentation.

Other costs

Customisation of **ISYNAPSE** and/or addition of non-standard features outside the scope of the current release can be carried out by Crabtree Engineering Software on a time basis at an agreed hourly rate or on an agreed price basis subject to prior negotiation.

Where such additional features are considered by Crabtree Engineering Software to be desirable enhancements of the software, price reductions may be available for the enhancements but the intellectual property of the amended software shall be owned by Crabtree Engineering Software.

The current hourly rate for program changes is AUD\$200.00 per hour + GST.

Travel and accommodation costs associated with any product support or development will be chargeable to the customer, but may be discounted pro-rata where the travel coincides with requirements by other customers and/or with business travel for other purposes. Such discount will be at the sole discretion of Crabtree Engineering Software.
